WHAT IS ADOPTION?

Adoption is a great act of giving love, and at Mother's Choice, we have the privilege of helping to build families through adoption. We believe every family is unique, and that family is defined by love, not blood.

Adoption is the permanent legal transfer of all parental rights from one family to another. Adoptive parents have the same rights and responsibilities as biological parents, and adopted children have the same emotional, social, and legal benefits as biological children.

MOTHER'S CHOICE LOCAL ADOPTION SERVICES

Mother's Choice is an Adoption Services Provider, accredited by the Social Welfare Department of Hong Kong. We are one of three partner agencies who provide services and suitability assessments for prospective adoptive families.

ELIGIBILITY TO ADOPT

Applicants may begin the process of adoption if they meet the following criteria, set by the Social Welfare Department.

Adoption applicants (couples and single parents) should have:

- At least 25 years of age and a strong desire to be parents and to make a permanent commitment to the child
- Good physical and mental health to raise a child **(confirmed by medical examination)**
- Reasonably educated (preferably having completed secondary education)
- Stable employment, sufficient financial resource and accommodation
- Residency in Hong Kong for one year and plans to stay for at least one more year after adoption
- Strong family relationships (if married - a stable marriage for over 3 years)

WHAT SUPPORT DOES MOTHER'S CHOICE PROVIDE?

Adoption is a lifelong journey, and we commit to walking alongside applicants, adoptive families, and their children throughout the process, and beyond, even after the adoption is complete.

“My wife and I always wanted to have children, but there were still just two of us in our family. A friend of ours adopted a child and encouraged us to consider it, but I could not accept the idea of raising a child who was not related to me by blood. Several years later, I read an interview of an adoptive father and I was deeply touched by his words. Something clicked, and I realized that I was ready to begin the adoption process. Now, we have our child, and there is nothing in the world that can replace our relationship as father and son. Just like any other parents, there are challenges awaiting us as our son grows up, but my wife and I are thankful for the honor to become parents!
